From the Capital. A large police force was called out at ashington Baturday, to prevent labor troubles, and disperse a crowd who were preventing work on the Washington Monu-

In the Cabinet recently, a letter from the Mexican suthorities was submitted by Secretary Evarts, charging that the Americans had been crossing into Mexico, stealing cattle and driving them across the Rio Grande into the United States. No action

Items in General.

The National party of New York, in Contion on the 24th of July, nominated a State ticket, and passed resolutions favoring the payment of all debts, public and

wein Nathaniel, Jere and Jones Baxter, sons of Judge Nathaniel Baxter, Democratic nominees for re-election as Judge of the Circuit Court, Hicks and Jones Baxter were fatally shot. The former received several shots from the Baxters, and his skull was fractured in two places by blows from the muzzle of a pistol in the hands of one of them. Jones Baxter received only one shot near the beart, and from a party unknown. Micks expired in a few minutes, and Jones Baxter lived scarcely an hour. Jere Baxter received a slight wound in the hand, Nathaniel Baxter in the foot, and a negro girl thirteen years of age was struck in the thigh by a stray shot, inflicting a painful but not fats! wound. The affray grew out of remarks derogatory to the character of the father of the Baxters by Hicks in a speech at a meeting of the candidates for county offices, on the Independent ticket, the evening previous.

Peter Bresnaham, who was convicted last May of the murder of Michael Daulter, in St. Lawrence County, New York, was hanged in Canton, New York, July 26. On hanged in Canton, New York, July 26. On the 13th of April last Bresnaham shot Daulter at South Colton, twenty-two miles from Canton, and afterwards split his head open with an ax, the gun-shot wound not being sufficient to cause death. Bresnaham then dragged the body into the woods near by and searched Daulter's clothing, only finding a few cents. The deed was committed with the expectation of finding a considerable sum of money that the murdered man was said to possess. Bresnaham confessed to several murders besides the one he was convicted of..... At a picnie in Lewis County, Kentucky, Thursday, Thos. and Wm. B ankenship were stabbed to death by Daniel and Joseph Morgan. In the melee ten or fifteen persons were wounded. Daniel Morgan is under arrest. Joseph fied.

Edward F. Noyes, Minister to France, having finished the business which brought him home, sailed in the City of Richmond Saturday for France The neighborhood of Reading, Penn., is greatly annoyed by tramps. In Some localities the farmers of the late Mr. Paran Stevens, of New York.
......As train No. 6, north-bound, on the Cincinnati Southern, was nearing Whitney's Station, Saturday, where they do not stop, they noticed a gentleman, who proved to be Dr. J. R. Desha, of Lexibgton, standing on the platform, apparently waiting for the train. Just before the train reached the platform he started across the track. The train was too close to be stopped soon enough to save him, and the engine-bumper struck him. The train was stopped and backed up as quickly as possible, but he was dead when the men reached him.

The weather was fair in the West and

The weather was fair in the West and South-west on July 29, and afforded good views of the sun's eclipse. At Denver, Col., Professor Sestini reported toward the end Professor Sestini reported toward the end of totality he observed some small continuous protuberances. There were streaks of light and shade on the ground preceeding the totality, and a bright corona around the whole solon disk, with luminous off-starts on both sides in the direction of the motion of the moon, each extending about one diameter and a half of the sun; also, two more off-starts, nearly at right angles with the former, about half the solar diameter in length. The Vassar party report unimportant observations. They saw three planets and four stars........Professor Stone's party at Schuyler, Col., report weather clear. All four contacts observed. The length of cords were observed by Profestor Stone, and the transits of Cusps observed by Upton. All observations were successful.......... While in a state of temporary mental aberration, produced by business troubles, F. W. Bachman, an extensive dealer in toys, notions, books, and stationery, and a resident of Peoria, Ill., for eighteen years, drowned himself in the river Monday night. He was forty-eight years old, and leaves a wife and five children.

Bosnia, Monday morning, July 29. He was met by a Turkish Major, who presented a document supposed to be a protest, and document supposed to be a protest, and was turned to invention, and he devised a reaping machine for harvesting grain. Bosnia, Monday morning, July 29. He was met by a Turkish Major, who presented a document supposed to be a protest, and pressed it upon him, but General Phillipovitch refushed to receive it, and the Major ultimately took the paper away. The Austrians also effected a crossing at Berbir. General Phillipovitch instructed his staff to show the inhabitants of Bosnia the greatest civility, but to adopt the most rigorous measures against any resistance.

Elections for members of the German

against 30,000 in 1877. General Von Moltke only received 2 811 votes, against 8,977 for the Progressist Haenel. Dr. Falk has been defeated in two districts, by tremendous majorities..... The National Liberals return their candidates from Saarbrucken and Heidelberg. A second ballot will be necessary in Frankfort, Mannheim, Mayence and Hanau. These second ballots will be between modera e and advanced Liberals except at Mayence, where one of the candidates was an Ultramontane.

The Uses of a Chinaman's Hair.

The Chinese mode of wearing the hair makes the flowery land the paradise of barbers, and the Chinese barber has not his counterpart the world over. From dawn he is in the streets carrying brom dawn he is in the streets carrying upon his shoulders at either end of a long bamboo, adorned with an effigy of a chimerical creature, the paraphernalia of his craft. Eagerly on the lookout for any one whose poll is not perfectly shaven, as soon as he detects such a one, he has him in a trice installed on a stoll beneath a larger paragol fixed on the beneath a large parasol fixed on the ground. In the twinkling of an eye Ah is ready and the skull under his manipis ready and the skull under his manipulations soon becomes as smooth as ivory. That done, he passes on to the pigtail, which he brushes, perfumes and dresses with the greatest care. Useless as it seems to us, it really is by no means so. The schoolmaster brings it smartly to bear on the fingers of recalcitrant youth, the ass driver has no other instrument wherewith to stimulate his beast, the man tired of life employs it as a hanging rope, and lastly the executioner seizes hold of it when he decaptioner seizes hold of it when he resolved to reside permanently in England. He purchased a large estate in South Devon, and started to build a dwelling that should surpass the baronial castles in the vicinity in magnificence. But death ended his career in Fond and the second in New York to Isabella E. Somevville, a woman whom he had met in France. Six children were the results of this union. They soon removed to France, where they remained until 1873, when he resolved to reside permanently in England. He purchased a large estate in South Devon, and started to build a dwelling that should surpass the baronial castles in the vicinity in magnificence. of higher caste in Spain are giving up attending bull fights. We knew it was coming. The last time we witnessed one of these disgusting spectacles was in company with Donna Isabella de Vaquezra, daughter of the rich old Don Francisco Vaquezra, reported to be worth eight millon doubloons, and who was one of the first men of the kingdom. There were present all the nobility. In the next box to us sat the lovely daughter. There were present all the nobility. In the next box to us sat the lovely daughter the next box to us sat the lovely daughter of Don Pedro Guerero, a rich old hidalgo, with a country place at Seville, who beamed upon us and the rest of the elite with great sweetness. But it was evident to us that Donna Isabella was not pleased with the sport of the arena, and finally, as the infuriated bull drove his horns into a vaquero's stomach and waved the poor wretch about in the air, she leaned over to us, and whispered behind her fan (and how well we remember the play of her perfumed breath upon our cheek!) in a soft and gentle voice: "Mia bouna amicos, non verde acerta crando, vos el pasa propre mi non;" which translated means: "My dear friend, you don't datch me in this equescurriculum again, and don't you forget it!"—Rockland Courier.

Rockland Courier.

Reckland Courier.

Reckland Courier a fine dold the meantime, another will turned up in England, which settled his property there, valued at about \$5,000,000, upon Mrs. Isabella Singer and her children. The property in America had been all distributed to the legatees; and recently David Hawley, of Yonker, one of Singer's executors, sailed for Europe to arrange the accounts against the fill turned up in England, which settled his property there valued at about \$5,000,000, upon Mrs. Isabella Singer and her children. The property in America had been all distributed to the legatees; and recently David Hawley, of Yonker, one of Singer's executors, sailed for Europe to arrange the accounts against the fill turned up in England, which settled his property there valued at about \$5,000,000, upon Mrs. Isabella Singer and her children. The property in America had been all distributed to the legatees; and recently David Hawley, of Yonker, one of Singer's last wife or her representatives. Thus will end one of the most extraordinary will cases ever brought before a Surrogate's Court.

Cut This Out and Save It.

A correspondent writes as follows about the flower of a well-known plant: I have discovered a remedy for consumption. It has cured a number of

A NORTH CAROLINA wagoner sold A NORTH CAROLINA wagoner sold his dog to a Laurens county man the other day for half a barrel of sorghum syrup. The dog, however, refused to be sold, and took refuge under the wagon. The Laurens county man crawled after him with a piece of meat in one hand and a rope in the other. Although there were several spectators of the scene that ensued it is difficult to get at the facts. All agree that there of the scene that ensued it is difficult to get at the facts. All agree that there was a scuffle under the wagon, accompanied by yelps and yells; but no one is willing to affirm that the man had the dog or the dog had the man. Finally, the dog, as it would seem, brushed up against the hind leg of the off mule, and then all was still. It is not certain what killed the dog. One of the spectators said he thought he heard a trace chain rattle, but when we went around to examine the mule sho was asleep. The man had lost his hat, his coat and a greater part of his trowsers, and subsequent examination proved that the dog died with one ear and a handfull of hair in his mouth.

A HEARTY jest kills an ugly face.

Fact Stranger than Fiction.

Affairs, announcing the murder by two or more Indians belonging to the Lemki tribe of Bannock John, an old Indian well-known in that section as a desperado. It appears Bannock John murdered a white man a few weeks ago on Camas Prairie, and the Indians feared retaliation on part of the Indian camps that ten of their number were murdered by whites in Round Valley while hunting. After hearing of this slaughter, biame was leid on Bannock John, and a few of the Indians formed a conspiracy for his assassination, which was successfully carried out.

The career of Isaac Merritt Singer, the millionaire inventor of the Singer Sewing-machine, although he died three years ago, has not yet lost its interest for the public, owing to the long contest there has been over his will and the extraordinary facts which have from time to time been brought to light. Mr. Singer's life combined romance and infer on successful in amassing wealth, and few ever ain so outrageously against the laws of morality as he did. He began life with nothing; for years he experienced the vicinity of the millionaire inventor of the Singer Sewing-machine, although he died three years ago, has not yet lost its interest for the public, owing to the long contest there has been over his will and the extraordinary facts which have from time to time been brought to light. Fact Stianger than Fiction.

If the parties the Come issues of Islands and Isl A private telegram states that General Phillipovitch crossed the frontier into

provements, which were embodied in what is called the "Singer Sewing-machine," by which he acquired his colossal fortune. He returned to New York and Elections for members of the German
Parliament were held on July 30. The
Progessists were successful in five districts
in Berlin. A second ballot between a
Social Democrat and a Progressist candidate

successary in one district. Cologne Social Democrat and a Progressist candidate is necessary in one district......Cologne elected an Ultramontane, Cassel a National Liberal, and Koenig-burg a Conservative. Second ballots with the Socialists are necessary in Breslau and Eberfield, and between Delbruck and a National Liberal at Stettin. At Strasburg the Protest party elected their candidate.....Although the Social Democrats are ahead in Berlin only in the Fourth District, where a second ballot is necessary, they polled 55,000 votes, against 30,000 in 1877. General Von Mottke only received 2 811 votes, against 8,977 for building up other family relations. One was Miss Mary McGonigal, by whom he had five children, and Mary E. Walter, who bore him one child. Both shared in his bounties, and the children looked upon him as their father. These facts and a settlement was finally made whereby he purchased her a dwelling-house in New York, the title of which was to be vested in their children at her death. The following month, after she had ordered her lawyer to go on with the suit for divorce, she was secretly married to John E. Foster, of Boston, under her maiden name. She kept the marriage secret until 1. coming to light, Miss Sponsler, believing marriage secret until January, 1863, expecting to get the deed of her house from Singer. In falling from a chair she was severely injured, and, believing she was about to die, revealed the secret marriage, which news came to Mr. Singer. He induced her, probably by threats of legal prosecution for bigamy, to sign a a cument which was in fact a renunciation of their former relations, and to guit the house in which she lived. Since that time she has continued to live with Mr Foster. In June, 1863, Singer was married in New York to Isabella E.

in July, 1875. WE are glad to learn that the ladies of higher caste in Spain are giving up attending bull fights. We knew it was coming. The last time we witnessed upreme Court affirmed the decision. In

about the flower of a well-known plant:

I have discovered a remedy for consumption. It has cured a number of cases after they had commenced bleeding at the lungs and the hectic flush was already on the cheek. After trying this remedy to my own satisfaction. I have thought philanthropy required that I should let it be known to the world. It is common mullen, steeped strongly and should let it be known to the world. It is common mullen, steeped strongly and sweetened with coffee sugar, and drink freely. Young or old plants are good, dried in the shade and kept in clean bags. The medicine must be continued bags. The medicine must be continued from three to six months, according to from three to six months, according to nature of disease. It is very good for the blood vessels also. It strengthens and builds up the system instead of taking away the strength. It makes good blood and takes inflammation away from the lungs. It is the wish of the writer that every periodical in the United States, Canada and Europe should publish this recipe for the benefit of the human family. Lay this up and keep it in the house ready for use.

It is an interesting and significant fact that of all the bankrupts who have lately filed their applications in the United States office in Memphis, none over advertised their business.

Facts of Great Interest to All-Time and Money Saved. All families are interested in their family physicians. They may take quack medicines for slight ailments, but when true sickness comes, then must come the family doctor. All are interested then in this matter, and every family newspaper should

terested in medical students. Indeed, so both time and money. In the Atlantic cities a student has to pay

for two courses of lectures \$155 each; or \$310 for the two. His diploma fee is \$30; all fees amounting to \$340. His board for

are in New York, the student pays for his two courses \$65 each, or \$130 for two. His diploma fee costs \$30. All fees amounting to \$160 for two sessions. His board for two sessions costs \$160 or \$80 for each. The entire fees and board costing \$320. These figures are also official, and show that the student who goes to the great colleges of the West saves fully \$300 in the cost of a first-class medical education. If to this amount be added that of the increased cost of travel, it is evident that \$400 would be a moderate estimate of the amount saved by him. Indeed, students residing in the New England and Atlantic States, can, by going to first-class riedical colleges in the West, save from \$200 to \$300 in the cost of a medical education. Surely these great money facts cannot fail to interest every reader, and cause him to bring them to the attention of

all studying or about to study medicine. Parents and preceptors will, we feel sure, thank us for this valuable informa-But there are other facts now to be given of greater interest; facts which show that the student cannot only save \$300 in the cost of his medical education, but that he can gain one full additional course of lectures. That is to say, the student will, in seventeen months, obtain three instead of two courses of lectures, and save also \$300. Among the many new catalogues of medical colleges recently issued, that of the Louisville Medical College, (Louisville, Ky.,) is exceedingly interesting. Indeed, the facts presented therein are so important

that we must present them to our readers.

It appears that the Faculty of the Louisville Medical College have been also elected? to fill the vacant chairs in the Kentuck to fill the vacant chairs in the Kentuck School of Medicine—one of the oldest and best medical colleges in this country; this great compliment having been extended to this Faculty on secount of the triumphant success of the Louisville Medical College. As the result, this Faculty teach in the Louisville Medical College from September to March, and in the Kentucky School of Medicine from March to July.

Medicine from March to July.

Both of these colleges are first-class institutions, both being connected, we see, with the Association of American Colleges, of which the colleges at New York and Philadelphia are also members.

From the fact of this Faculty teaching in

these two great medical colleges, there spring some curious and interesting results. Students who enter the Louisville Medical in September or October, can, at the close of that session in February, at once enter the Kentucky School of Medicine, which commences its session in March and closes at the end of June. In the fallowing September or October, these students can again enter the Louisville Medical College and graduate in February. Thus having, in seventeen months, passed three complete courses of lectures; whereas; in seventeen months, any other Faculty can give but two

The student's entire fees for the three courses in these two Louisville colleges are, we see, but \$187, and his board for seventeen months but \$200, or \$387 for the entire cost of his medical education, board, and

all fees included. lectures, and has to pay for these \$340, with \$280 for his board (\$620 in all,) it will be Seen that in Louisville he gets one full course of lectures more in the same time, and saves in fees and travel fully \$300. A GREAT ECONOMY OF TIME, A GREAT SAVING OF MONEY, AND THE GAINING OF ONE EN-TIRE COURSE OF LECTURES. Indeed, it is evident from the facts and figures afforded to the public in these catalogues, that IN NO OTHER WAY, IN NO OTHER CITY, AND IN NO OTHER MEDICAL COLLEGES, CAN A STUDENT IN SEVENTERN MONTHS OBTAIN THREE FULL COURSES OF LECTURES AND YET SAVE IN MONEY FULLY \$300.

Every student or guardian or parent who reads these remarkable facts should send at once for catalogues. It is stated in the catalogues just issued, that all applications for them should be addressed to the Dean of the Louisville Medical College, Louisville, Kentucky.

We see that five per cent. of the class are granted beneficiary privileges.

We also see in the catalogues issued, that students who desire it will be educated by the graded system adopted at Harvard, Massachusetts.

One is not surprised to read, after learning these remarkable advantages offered by this Faculty, that ninety-five students have been graduated by it in the last year, The class list as published shows students

from almost every State; the best evidence of the fact that the public throughout this country is rapidly obtaining and appreciating the valuable information here given to our readers. It seems only natural that so many students from the Northern States should

seek in winter the mild and temperate climate of Kentucky; for thus they escape their harsh winter weather, and return home in time for the cool Northern summer. Louisville, the geographical center of this country, bids fair to be one of its greatest

medical centers. While newspapers seldom furnish the information which we have herein given, we are satisfied that our readers will value these interesting and profitable facts, and will agree with us in saying that all which is of interest to the family circle belongs of right to the family newspaper.

Milestones on the Road to Health.

The recovery of digestion and the re-sumption of activity by the liver, bowels and kidneys are milestones which mark our progress on the road to health. They speedily become perceptible when Hostet-ter's Stomach Bitters is used by the invalid. Nothing so surely and expeditiously con-sumes the distance to the desired goal. As ne bodily function can suffer interruption without impairing the general health of the without impairing the general health of the system, so the system can never acquire perfect vigor, health's synonym, until that function be actively resumed. Take, for instance digestion, a suspension of which is invariably rectified by the Bitters. If the organs upon which it develves grow weak, biliousness, constipation, headache, poverty of the blood, and a hundred other symptoms supervene, which indicate unmistakably the baneful general influence of dyspepsia. The disappearance of all these symptoms the baneful general influence of dyspepsia. The disappearance of all these symptoms through the use of the Bitters shows with what thoroughness it removes their causes.

THE OBJECT OF OUR ESTABLISHMENT.

Our Newspaper Advertising Bureau, No. 10 Spruct Street, New York, is an establishment intended to facilitate the convenient and systematic placing of advertisements in newspapers. It is conducted upon the principles which we conseive to be the right ones for securing the best results to the advertiser. We undertake to represent American Newspapers, not only the newspapers of the city of New York, and of all other American ciries, Beligious, Agri-cultural, and other class owespapers, but also the small country journals. We receive requisity and keep on file the daily and weekly newspapers of every lescription throughout the land.

CONFINED STRICTLY TO NEWSPAPER AD-VERTISING AND TO AMERICAN NEWSPAPERS.

We confine our transactions to newspapers, and do not accept or undertake the management of other classes of advertising such as books, sign-boards, posters, or job printing.

By adhering to one branch of advertising we make ourselves masters of it.

We also restrict our dealings to newspapers published within the geographical limits of the United States and Dominion of Canada.

THE NATURE OF THE SERVICE WHICH IT IS OUR BUSINESS TO RENDER TO THE ADVERTISER.

We undertake to maintain an established credit with every newspaper, and to have at hand a schedule of charges for advertising space in its columns; to be able to quote this rates to an advertiser who wishes one or several, and to procure the prompt insertion of the advertisement without any extra charge for the service rendered; which service consists of cooting the price, printing or writing as many duplicates of the advertisement as may be required, forwarding the copy for insertion as our own expense for postage or messenger service; examining the papers to see that the advertisement appears,

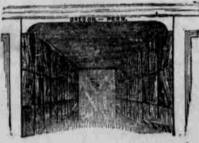

when, and in the manner that it ought to; checking each subsequent issue of the advertisement, in each paper, in a book kept for that purpose, at all times subject to the inspection of the advertiser, and marking plainly in each paper the advertiser, and marking plainly in each paper the advertiser comes for sends for the purpose of having the files examined, the eye may light promptly upon his amountement, without the labor of searching a whole paper or page.

If errors or omissions eccur, it is our duty to notify publishers, at our own expense for labor, postage or messenger, and to see to it that the publisher of the raper actually door render the specified service for which the advertiser contracts.

OUR PROMISE.

We promise these advertisers who entrust their advertising patronage to our management that we will not allow them to be charged, in any instance, any more than the publishers' schedule rates; that we will produre for them the acceptance of any advantageous offer definitely made to them by any newspaper publisher, advertising agent, or canvaser of responsibility. We are unwilling to do work without a profit, and never offer to do so, yet in cenformity with the promise made above, we sometimes find it advisable.

AMOR SMITH & CO., THE SYSTEM OF ARRANGEMENT FOR NEW PAPER FILES.

We have a perfect system for filing news separate space being accorded to each, an with the printed name of the paper it is it accommodate. A stranger can place his 1

THE AMOUNT OF MONEY TO BE EXPENDED.

Persons who have had little experience as advertisers often have a pretty clear understanding of what they would like to do, but are entirely ignorant of the probable cost.

We have made out for such a person a plan of advertising calling for an investment of \$5,000, and on submitting it for approval found our customer dismayed at the magnitude of the expense, he not having contemplated an expenditure exceeding \$200 or \$500. In such a case labor would have been saved, if at the commencement of the negotiation the question had been asked: "How much money are you prepared to devote to this advertising?"

THE CONFIDENCE OF OUR PATRONS A MAT-TER OF PRIME IMPORTANCE.

It is a matter of prime importance to us, for the purpose of maintaining our influence with publish ers, that it shall come to be understood among then that our statements about the advertising to be those or not to be done, are to be relied upon, and to this bad our dealing with our selvertising patrons must be upon a basis of mutual confidence and good foith

OUR CUSTOMERS ENTITLED TO OUR BEST SERVICES.

Estrac! from New York "Times," June 14, 1875.
